Action Alert:

Preserve Mature Forest

We urge Progressive Cheverly members to join Our Revolution and others to support statewide efforts to prevent the development of a 105-acre woodland tract currently owned by NASA. NASA’s Goddard Space Flight Center in Greenbelt is ceding ownership of mature forested land known as NASA Area 400 at the corner of Springfield Road and Good Luck Road in Prince George’s County. If sold on the open market the area will likely be developed with housing, roads, strip malls and/or office parks. We urge you to contact Representative Anthony Brown (or your elected Representative if you live in another congressional district) and Senators Chris Van Hollen and Ben Cardin and ask them to support a no-cost transfer of this land to the adjacent Patuxent Research Refuge (U.S> Fish and Wildlife Service).
